## **DETAILED ACTION**

### ***Response to Amendment***

1. The amendments to the claims have overcome all rejections except for those related to the defective reissue oath, which are repeated below. Any objection or rejection not repeated below is expressly withdrawn. Applicants stated that a new oath would be forthcoming but it has not yet been received and the time for acting on the case is up.

### ***Reissue Applications***

2. Applicant is reminded of the continuing obligation under 37 CFR 1.178(b), to timely apprise the Office of any prior or concurrent proceeding in which Patent No. 6,262,019 is or was involved. These proceedings would include interferences, reissues, reexaminations, and litigation.

Applicant is further reminded of the continuing obligation under 37 CFR 1.56, to timely apprise the Office of any information which is material to patentability of the claims under consideration in this reissue application.

These obligations rest with each individual associated with the filing and prosecution of this application for reissue. See also MPEP §§ 1404, 1442.01 and 1442.04.

Art Unit: 1653

3. The reissue oath/declaration filed with this application remains defective (see 37 CFR 1.175 and MPEP § 1414) because of the following:

Paragraph 12 of the Reissue Declaration refers to claim 34, however, claim 34 has been cancelled. The error that applicants wish to correct, to wit, claiming a method of promoting the biosynthesis of glycoproteins and/or facilitating the absorption of N-acetylcysteine is in new claim 40. Reference must be made to that claim in the Reissue Declaration.

Also, the information required by 37 CFR 1.63 is not present in the declaration. Even if the inventors do not need to sign, e.g., assignee can sign a declaration that is not broadening, the inventors' names and their citizenship, etc. must be in the declaration along with the additions for the reissue declaration.

4. In accordance with 37 CFR 1.175(b)(1), a supplemental reissue oath/declaration under 37 CFR 1.175(b)(1) must be received before this reissue application can be allowed.

5. Claims 35-40 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251. See 37 CFR 1.175. The nature of the defects is set forth above.

Receipt of an appropriate supplemental oath/declaration under 37 CFR 1.175(b)(1) will overcome this rejection under 35 U.S.C. 251. An example of acceptable language to be used in the supplemental oath/declaration is as follows:

"Every error in the patent which was corrected in the present reissue application, and is not covered by a prior oath/declaration submitted in this application, arose without any deceptive intention on the part of the applicant."

***Conclusion***

6. No claim is allowed.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
